

Pictured: Model FRD-Vinyl

Maximum Door Size: 14' wide x 14' high

An external jackshaft motor on the FRD-4000 moves the door at a rate of 12" to 24" per second and can be cycled 10 to 15 times per hour. The FRD-4000 includes a 3 Button Station and Photo Eye.

- Maintains and Isolates Environments
 - Reduced Energy Consumption
 - Blocks Airborne Pollutants
- Improves Employee Comfort, Security and Productivity

Features:

- Extruded Aluminum Tracking Guides

Allow the FRD-Vinyl roll-up door to move up and down smoothly

- Extruded Aluminum Stiffener Bars

These high-strength stiffeners combat winds and negative air pressure and prevent the door from being set out of position.

- Tap and Go Breakaway Bar

Prevents FRD-Vinyl doors from breaking if hit. The bottom bar releases in either direction and can easily be put back into the track.

The Ideal Roll-Up Door For Warehouse-to-Warehouse Separation!
